

**BIOINforMatics @ SZN**

**BLAST service request**

This request is to make your own collection or a desired collection available through the BIOINforMA BLAST service.

Please organize your data and send the signed request to [bioinforma@szn.it](mailto:bioinforma@szn.it) (for SZN members accompanied also by a ticket request).

**Title of the data collection** (mandatory: will identify the collection among many):

.....

**The data represent** (mandatory: a short description that will be available on the web):

.....

.....

**Data manager** (mandatory; the owner of the data, responsible for this collection. Any enquiry or problem on the data quality will be addressed to him/her):

NAME:.....SURNAME .....

EMAIL: .....

PHONE CONTACT: .....

LABORATORY and DEPARTMENT: .....

ISTITUTE: .....

**FASTA file(s)** (mandatory; short, meaningful name for the file. If more than one file, please fill this part for each file):

Meaningful name to be used as link in the website (eg. *C. intestinalis* ESTs library 1): .....

Full description (complete description that will be included on the website as documentation for the user (please be explanatory and careful), eg. *C. intestinalis* ESTs from nervous system stage .... extracted by .....): .....

**FASTA file provided as** (mandatory; e.g. Google drive link, external link, Hard Disk):

.....

**The included sequences have the ID corresponding to** (an NCBI ID should be preferable):

.....

**The data have been already published in** (title and authors and link to the paper online):

.....

- The data can be publically blasted yes  no
- The data can be only exploited by SZN users yes  no
- Do you want your data to be downloaded by external users  
as a whole collection yes  no

**I am the responsible for the quality and the reliability of the datasets and information here provided**

**I authorize the BIOINFORMA SERVICE to provide the services as here described.**
