AGREEMENT:

The described machine goes under the care of BIOINforMA.

The described machine will be moved in the scientific computing cluster room of SZN in agreement with space availability and optimal conditions

(if you do not agree in principle, please explain the reasons)

- By giving this responsibility to BIOINforMA personnel, I herein accept that the described machine will be part of the scientific computing resources of SZN and therefore it will be appropriately exploited also for other needs, in agreement with the priorities of my group needs.

- I cannot accept to share the machine as a common resource managed by the BIOINforMA group in agreement with my activities because:
